We have a wonderful team behind us and working with these people we are supporting local livelihoods and helping to fight poverty through trade. We have been supporting the team of artisans by investing in equipment and machinery and teaching them the importance of quality, comparable in an international environment.

We have given exposure to their skills by showcasing the products at most of the local craft fairs, various gifts shops around Kenya and duty free shops at the JKIA and the US Embassy.

From the initial phase we have recently grown Savannah Sun into the area of corporate branding and give-aways. This is where the company excels providing a solution for corporates to have something that is bespoke and befits the region in which they operate.
